How should I pack to save time at the airport?

- Pack shoes, boots, sneakers and other footwear on top of other contents in your luggage.
- Don't stack piles of books or documents on top of each other; spread them out within your baggage.
- Avoid over-packing your bag so that the screener will be able to easily reseal it if opened for inspection.

For a travel checklist and a complete list of prohibited items, visit the **Transportation Security Administration (TSA)** at www.tsa.gov. Always contact your airline with questions about special travel concerns.

To save time and effort...

- Don't bring wrapped gifts through the security checkpoint.
- Pack undeveloped film in carry-on baggage only.
- Remove your suit coat or jacket prior to entering the screening area, and have your I.D. and tickets in hand.

Sporting equipment

Fertilizers used on many golf courses can trigger explosive trace detection equipment. Before flying, clean golf clubs. Skis must be treated as checked luggage. Scuba tanks are not allowed on commercial airlines. Ship scuba tanks, or consider renting a tank at your destination. Fishing tackle and sporting equipment must be checked. Campers with gas containers for grills or stoves must find another way to ship the containers separately because they cannot be brought onto a plane.

Checkpoint friendly laptop bags

TSA will allow laptops to remain in bags meeting "checkpoint-friendly" guidelines. Not all laptop bags are checkpoint friendly. For detailed information about checkpoint friendly laptop bags, including diagrams, visit: www.tsa.gov.

TSA's shoe-screening policy

You are required to remove your shoes before entering the walk-through metal detector.

TSA's list of acceptable luggage locks

TSA-recognized locks can be opened by TSA inspectors using special tools provided by the luggage industry. If your checked luggage cannot be opened for inspection, the locks may have to be broken. Visit www.tsa.gov for a list of acceptable locks.

TRAVELERS WITH SPECIAL NEEDS**Arrange for an escort**

If you require an assistant to accompany you through the security checkpoint to reach your gate, speak with your airline representative about obtaining a gate pass for your companion before entering the security checkpoint.

Simplify the process

Bring evidence verifying you have a medical implant or other device that may set off the metal detector. Although this is not required, it may help to expedite the screening process.

Permitted items

Mobility aids and devices permitted through security checkpoints include: wheelchairs, scooters, walkers, crutches, canes, prosthetic devices, body braces, communication devices (e.g. Braille note takers, slate and stylus), dog guides, service dogs, hearing dogs, and diabetes-related equipment and supplies.

Our youngest travelers

Babies must be at least 7 days old to fly. It is best to check with your pediatrician before flying. Recommendations are to wait 2-3 months, longer for premature babies.

Consider seating arrangements

Babies under age 2 may ride as lap babies for free on most domestic flights. Even lap babies need a ticket when flying internationally. The safest method for your child to fly is in his or her own seat, in an approved car seat. Check with your airline.

What to bring

Always bring more diapers, wipes, and snacks than you think you will need in case of delays. Giving baby a pacifier during take-off and landing helps to equalize pressure in the ears. Bring a spare outfit for baby and yourself. For the sake of those around you, bring quiet toys, such as books.

Talk with your airline

Arrangements differ slightly between airlines and between domestic and international flights. Always check with your airline before flying with a small child. Consider asking: Does a child's car seat/stroller count as a carry-on? Are there diaper-changing facilities on board the airplane?

Talk with your kids

Discuss procedures with children prior to arriving at the airport so they are not surprised by the screening process. Explain to them that all belongings, even their toys or bags, will have to be screened.

Allow extra time

When traveling with children, please allow extra time for check-in and passing through the security checkpoint.

Everyone must be screened

Even babies must be individually screened. If your child can walk unassisted, it would be best to have the child walk through the metal detector independently.

Strollers must be examined

All child-related equipment must be X-rayed or inspected by a checkpoint screener.

Arrange for an escort

If a child is traveling alone, at least one parent or relative may receive a pass from the airline to escort the child or to pick him/her up at the boarding gate. People under age 18 are not required to travel with I.D.; however, airlines may require a copy of an infant's birth certificate to verify age. Call your airline ahead of time to make special arrangements.

Advanced Imaging Machines

The Transportation Security Administration (TSA) has activated additional security screening equipment at BNA. The Advanced Imaging Technology (AIT) screening machines are millimeter wave machines that do not involve X-rays.

Note that being screened using these new screening machines is optional. However, passengers opting out will be subject to a pat down.

The TSA recommends removing all items from pockets in addition to accessories such as: wallet, belt, bulky jewelry, money, keys and cell phone.

Enhanced Pat Downs

TSA is implementing a more thorough pat down process at BNA. Pat downs are used on passengers who opt out of the Advanced Imaging Technology (millimeter wave) screening machines, as well as those who set off walk-through metal detectors.

The majority of pat downs occur when a passenger alarms either the metal detector or the AIT unit. To reduce this circumstance, the most important thing for a traveler to do is take everything out of his or her pockets before going through screening. Also, please avoid wearing clothes with a high metal content or wearing heavy jewelry through security.

Passengers may request private screening rooms. For questions or more information, visit www.tsa.gov.

TIPS FOR CHECKED AND CARRY-ON BAGS

Remove Old Airport Tags

BNA has added a new in-line explosive detection system (EDS) to improve the safety and security of the screening process for checked baggage. Passengers are asked to remove non-airline issued tags and labels, as well as tuck in or remove straps and hooks from their luggage.

Don't Pack Valuables in Checked Luggage

Carry on valuable items such as laptop computers, jewelry, cameras and other electronics.

Please be advised that you will be required to remove large electronics from your carry-on bag and submit them separately for x-ray screening. Small electronics, such as iPods, can remain in your carry-on bag.

Do not pack valuables in checked luggage.

BNA RECEIVES INDUSTRY AWARDS

Airport Revenue News (ARN), a leading concessions trade publication, awarded BNA with three top recognitions in the medium-sized airport category during its 2012 Best Airport & Concessionaire Awards:

- Airport with the Best Customer Service
- Airport with the Most Unique Airport Services
- Best Overall Concession Program

BNA was also recently recognized by Airports Council International-North America (ACI-NA) as the winner of the Richard A. Griesbach Award of Excellence for its unique airport concessions program.

In addition, BNA's Arts at the Airport program was recognized by the Arts & Business Council of Greater Nashville with The Bowtie Award in the "Arts Impact" category.

BNA's 75th ANNIVERSARY

IT ALL STARTED IN 1937

Constructed as a Works Progress Administration (WPA) project, Nashville's airport officially opened in June 1937.

It was named Berry Field in honor of Colonel Harry S. Berry, State Administrator of the WPA. The three letter identifier, BNA, stands for **B**erry Field **NA**shville.

The new airport consisted of a terminal building, two hangars, a 4,000 ft. concrete runway and a flashing beacon. Within the year, 189,000 passengers had used the facilities.

A GRAND OPENING

- BNA's opening festivities included a parade of planes downtown and a sky parade over Nashville, plus an aviation banquet and aviation ball.
- An excited crowd of 40,000 attended the opening!
- Additional opening ceremonies featured parachute jumps, wing-walking, refueling demonstrations, and a mile-high double wedding in an American Airlines plane.
- In a *Nashville Banner* newspaper article date June 13, 1937, the WPA declared, "the field in Nashville is regarded as a model for the nation." BNA has been propelling Nashville forward ever since.

2012 – A YEAR TO CELEBRATE

The Metropolitan Nashville Airport Authority has great plans to celebrate the 75th anniversary of BNA. Please help us to commemorate this very special year, and thank you for being part of our airport's history.

Propelling Nashville

75 YEARS – ANNIVERSARY TRIVIA

- As BNA celebrates 75 years, we are in great company. The Tennessee State Park system was also launched in 1937 through legislation creating the Tennessee Department of Conservation.
- In 1937, Hiram "Hank" Williams' career began at the age of 14 by winning a talent show with his original tune, "WPA Blues." The rest is country music history.

The award-winning Arts at the Airport program selects and presents works by local, regional, and national artists for the enjoyment and enrichment of Nashville International Airport's passengers and visitors.

Created in 1988 by the Metropolitan Nashville Airport Authority, Arts at the Airport is an ever-growing, ever-changing showcase of cultural diversity and creative talent in Tennessee. Please visit www.flynashville.com/arts to learn more about Arts at the Airport.
