

Connecting to Free Wi-Fi at Nashville International Airport

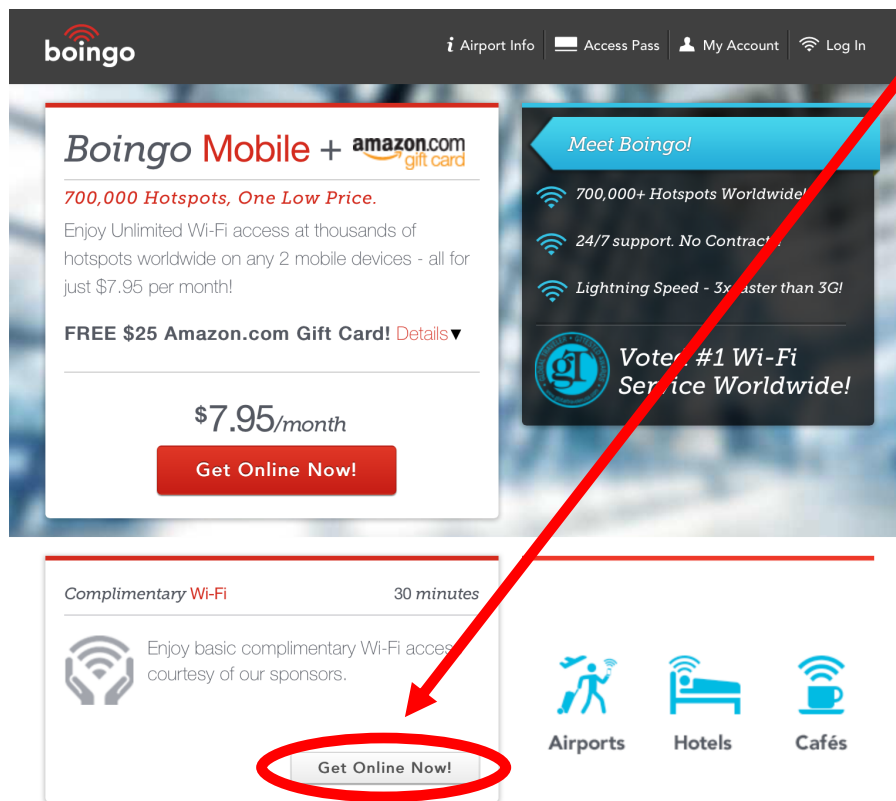

1. Check to be sure your Wi-Fi is “on” (if applicable). This option is usually located in the Settings menu.
2. From the Settings menu, select “Wi-Fi” and then choose the “Boingo Hotspot” SSID.
3. Open an internet browser on the device and attempt to connect to any public website.
4. The browser will automatically redirect the user to the following page.

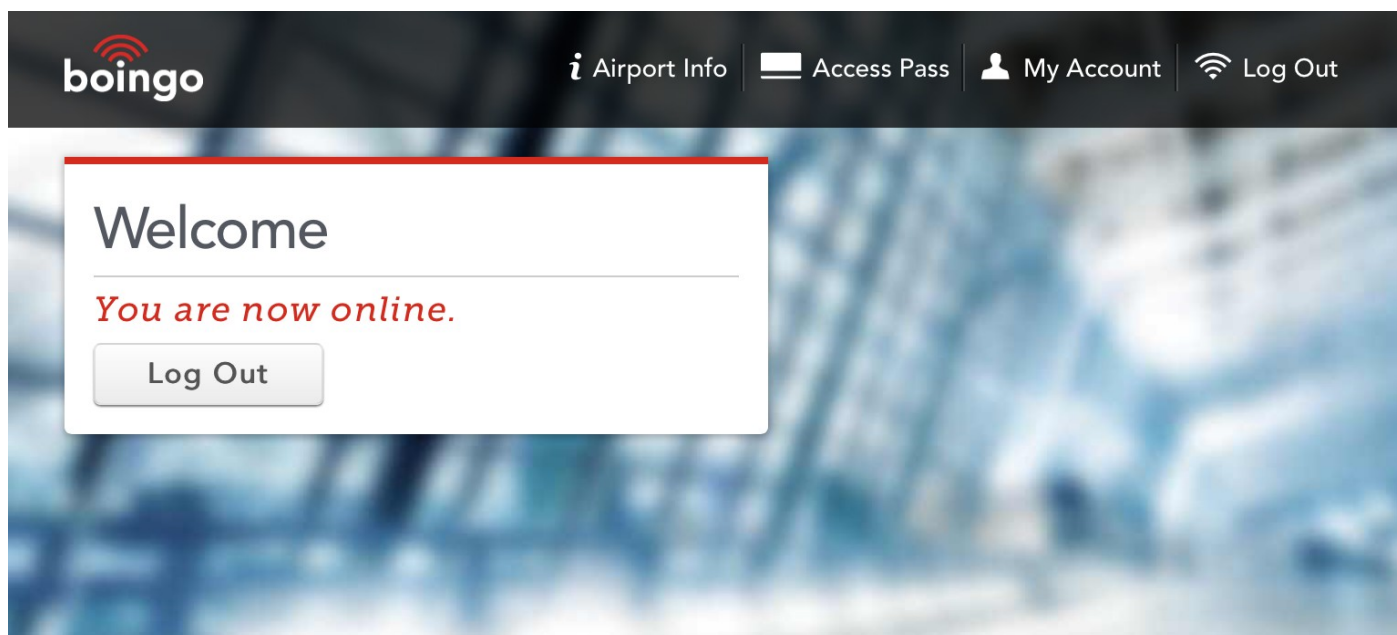

5. Click on “Get Online Now!”
6. Close any popup screens that may appear by selecting the “X” in the upper right-hand area of the popup.

7. Click on “Get Online Now!” under the “Complimentary Wi-Fi” option.

8. The user should be online once they receive the following screen.

Users who are experiencing connectivity problems or have technical questions about using the Boingo Wi-Fi service at Nashville International Airport, should contact the Boingo Customer Care Team at:
